WHICH GOLF BALL IS RIGHT FOR YOU?

Golf balls consist of three categories:

TOUR PERFORMANCE

These are 3-4 piece multilayer balls with urethane covers. Despite the higher price, the tour performance golf ball category represents 45% of the custom logo market (with Titleist Pro V1 owning the majority of the category). The three-piece ball has a core, mantle, and cover. The four-piece ball has an inner core, a outer core, mantle and cover.

MID-TIER

The category of mid-tier incorporates characteristics from both the tour and the value balls. These are generally three-piece golf balls with urethane or surlyn covers and are offered at a lower price than the tour without compromising feel and control. The mid-tier golf ball offers the widest selection. Most popular in this category is the Bridgestone e6 Soft.

VALUE

Made with harder covers and a softer core, these two-piece balls are designed for distance. The Callaway Warbird 2.0 is our top selling ball in this category. Compared to the other options, most golfers cannot tell the difference when hitting these balls. Callaway offers a recognizable name brand at an affordable price, allowing you the freedom to spend more money on unique accessories.

WHICH GOLF TEE IS RIGHT FOR YOU?

Most tees sold are made of wood (PTW), however there is a movement toward more durable performance tees. It's common to break a wood tee every few holes. Evolution and FlyTee tees (PTE/PTF) cost more but they last a lot longer, thus providing increased exposure. The Evolution and Flytee tees offer less resistance at impact for more distance. Similar to wood, the bamboo tees (PTB) are a great alternative. Though slightly less durable, they are a more budget friendly option.
